TO ORDER: 1) how many tanks to measure 2) choose gauge according to depth of deepest tank 3) add PV if any waste tanks

BASIC TANK TENDER COMPONENTS

Instrument panel: pump, gauge and 1 pushbutton valve per tank; with or without PV

NT: each system comes with 30' per tank in a continuous roll

TPF: each system comes with 1 TPF per tank (30" tube attached, w/ tubing connector)

EXT: TPF Extender - only for tanks deeper than 30" (60/70" gauge scale) is another straight TPF tube w/ brass tube union in one end and stiffening wire inside can be removed for less deep tanks; joins into bottom of TPF tube

Choose either 30/35" or 60/70" gauge scale (or metric equivalent) or 160/180" for deeper tanks. *ALWAYS BEST TO HAVE EXCESS GAUGE CAPACITY*

PV: Purge Valve (toggle valve) ONLY needed if any waste (black or grey) water tanks to be measured

REPLACEMENT PART FOR OLDER SYSTEMS:

TPF – Tank Penetration Fitting (comes w/30" straight tube attached and tubing connector) = \$45.00 ea

VAK – Valve add kit (is valve, tubing connector, brass hose barbs and urethane tubing) = \$70.00 ea

TC – Tubing Connector (are on the end port of each valve and each TPF) = \$11.00 ea

TAP – 10/32 Tap (can be w/#21 drill if needed) \$15.00

TPF EXT – TPF Extender (for tanks deeper than 30" – 30" straight TPF tube, brass tube union and stiffening wire inside) = \$10.00 ea

PVR – Purge Toggle valve refit to existing unit, for waste tanks (toggle to purge bypass's gauge to clear waste tank TPF tube, flip to read for tank reading) send unit in for refit \$130.00
